## Setting Up FLIR Cameras is a Breeze With This New Compatibility Guide

February 4, 2019 Furuno Fred #2019-01

We regularly receive inquiries from customers and dealers asking about FLIR camera compatibility with our NavNet product line. Seeing the potential benefits for everyone, we've created a new <a href="FLIR/NavNet Compatibility Guide">FLIR/NavNet Compatibility Guide</a>. This helpful new document is posted on our website under all NavNet 3D, TZtouch, and TZtouch2 MFD product pages in the "Support/Tech Info" area.

This guide, along with these <u>FLIR Camera Setup Procedures</u>, makes determining compatibility and properly interfacing FLIR cameras a breeze.
